PRAVEENKUMAR R

AI SOFTWARE ENGINEER | LLMs | AI AGENTS | FASTAPI | GENERATIVE AI

Coimbatore, Tamil Nadu, India | +91 9597345895 | praveen72696@gmail.com | LinkedIn | GitHub | LeetCode | PortFolio

PROFESSIONAL SUMMARY

AI-focused Software Engineer with hands-on experience building LLM-powered applications, conversational AI systems, backend APIs, and intelligent workflows. Currently working as a Software Engineer at InTalksAI, contributing to AI-powered banking applications using Python, FastAPI, LLM orchestration, LangChain, PostgreSQL, Redis, and REST APIs. Strong foundation in Data Structures & Algorithms, backend development, Generative AI, and AI Agents.

EXPERIENCE

Software Engineer — Part-time | InTalksAI, Coimbatore Aug 2026 – Present

- Develop backend services and REST APIs using Python and FastAPI for AI-powered banking applications.
- Contribute to LLM-based multi-agent workflows for customer query understanding and orchestration.
- Work on conversation context, conversation logging, intent routing, and state-based workflows.
- Implement YAML-based intent routing and orchestration logic for conversational AI systems.
- Build and integrate backend services using PostgreSQL and Redis.
- Contribute to conversational AI features and integrations with external APIs and communication channels.

Software Engineer Intern | InTalksAI, Coimbatore Jun 2026 – Aug 2026

- Developed backend APIs using Python and FastAPI for AI-powered banking applications.
- Worked with LLMs, conversational AI workflows, API integrations, PostgreSQL, and Redis.
- Contributed to conversation management, context handling, and backend service development.

TECHNICAL SKILLS

AI & Generative AI: LLMs, Generative AI, AI Agents, LangChain, Prompt Engineering, NLP Basics, Machine Learning Basics

Backend: FastAPI, Django REST Framework, Spring Boot, REST APIs, Node.js, Express.js

Languages: Python, Java, C

Databases & Storage: PostgreSQL, MySQL, MongoDB, Redis

Core CS: Data Structures & Algorithms, Object-Oriented Programming, DBMS

Frontend: HTML, CSS, JavaScript, React, Next.js, TypeScript (Basics)

Tools: Git, GitHub, VS Code, Postman

PROJECTS

Customer360 Banking AI Backend

Python | FastAPI | PostgreSQL | SQLAlchemy | Alembic | Redis | Claude | AWS Bedrock

- Developed backend services for an AI-powered banking platform supporting customer-centric conversational workflows.
- Implemented APIs for customer, account, loan, card, KYC, context, and conversation-related operations.
- Implemented conversation turn logging and retrieval for maintaining conversation history and context.
- Integrated LLM-powered conversational workflows with backend services.
- Worked with PostgreSQL, SQLAlchemy, Alembic, and Redis for data persistence and session/context management.

State Government Sponsored Scheme Eligibility Predictor

Python | Pandas | NumPy | Scikit-learn | FastAPI

- Developed a machine-learning system to predict citizen eligibility for Tamil Nadu government welfare schemes using socio-economic data.
- Implemented data preprocessing and feature-based prediction using a Decision Tree model.
- Built FastAPI endpoints for health checks, model information, and eligibility prediction.
- Designed the system to support eligibility prediction across multiple government schemes.

StudentVoiceAI — AI-Powered Student Complaint Categorization System

HTML | CSS | JavaScript | TypeScript | Node.js | MongoDB

- Developed an AI-powered platform for categorizing student feedback and complaints, with backend APIs and a responsive integrated frontend.

CampusSlotAI — Campus Sports Booking System

HTML | CSS | JavaScript | TypeScript | Node.js | Supabase

- Developed a full-stack sports slot booking application with authentication, real-time availability, booking and user-management APIs.

EDUCATION

B.E. Mechanical Engineering - Bannari Amman Institute of Technology Expected 2027 | CGPA: 7.22 / 10.0 (up to 6th Semester)

HSC - Shree Gurukulam Higher Secondary School (2022–2023, 72%)

SSLC - St. Mary's Convent Matric Higher Secondary School (2020–2021, Passed)

CERTIFICATIONS & ACHIEVEMENTS

- Python & AI Agents — Udemy
- Modern AI, Cybersecurity & IoT — Cisco Networking Academy
- Solved 400+ problems on LeetCode; strong foundation in Data Structures & Algorithms.
